TAKE NOTE

If you are attempting to make management level decisions regarding the initial set-up of a sales environment or improving and existing sales environment within your bank, then this seminar is a MUST.

One of the most frequent comments we receive from attendees of this seminar is “I wish my CEO was here.” There is too much information for an attendee who participated in this seminar to come back to the bank and sum up the content.

The instructor has 27+ years in training and consulting bankers and teaches unique concepts for sales cultures. Structuring sales within a community bank can not be experimental. You need to get it right the first time.

KEY PROGRAM TOPICS

“ Finally, a sales process that is true to the mission of community banking. This is not a sales training course; it’s a model for empowering your employees to better help your customers. Bob Erickson knows the value of community banking, its role in our communities, and how to teach sales practices to skeptical employees. Bob teaches how providing superior customer service can be the most important and profitable activity of your bank. ”
